7. REQUIREMENTS FOR CANSAIL DINGHY INSTRUCTOR TRAINING & CERTIFICATION

7.1. CANSail Dinghy Instructor Certification has two components:

- Training & Assessment – Instructor Candidates attend a CANSail Instructor Clinic where they are provided with training and assessed on the following elements: Safety, Professionalism, Sailing Skills, Technical Knowledge, Sailing Theory & CANSail Instructor Theory, Power Boat Operation, Planning a Practice, Teaching Methods, Land Teaching, On Water Instruction and Analyzing Performance.
- Evaluation – Instructor Candidates are evaluated on the following elements: Safety, Professionalism, Technical Knowledge, Power Boat Operation, Planning a Practice, Teaching Methods, Land Teaching, On Water Instruction, and Analyzing Performance.

7.2. During the Training & Assessment a candidate's ability to complete the skills in a particular section is compared to the standard and assessed based on the following scale:

- Below Standard
- Meets Standard
- Exceeds Standard

7.3. Candidates must achieve a minimum of 'Meets Standard' on each assessed skill in order to receive 'Trained' status at a CANSail Instructor Clinic.

7.4. Candidates who have completed a CANSail Training clinic and achieved the minimum standard have 'Trained' status and may deliver CANSail programs and award CANSail levels based on the certification authority of their level. It is strongly recommended that 'Trained' Instructors be under the direct supervision of an Instructor Certified and with experience at the same level.

7.5. Candidates having attended a CANSail Training Clinic and having received an assessment of 'Below Standard', resulting in an 'In Training' status, in Sailing Skills, Technical Knowledge, Power Boat Operation, Plan a Practice, Teaching Methods, Land Teaching, On Water Instruction, or Analyze Performance will remain 'In Training' and are eligible to retest the component(s) for which they were assessed as 'Below Standard'.

- 7.6. Candidates having attended a CANSail Training Clinic and received 'Below Standard' in Safety or Professionalism are unsuccessful, not eligible to retest, and must retake the full Training Clinic to achieve 'Trained' status.
- 7.7. LF's running a CANSail Instructor Clinic have the authority to award 'Trained' status at the CANSail 1-4 Instructor level or at the CANSail 1-2 Instructor level and leave 'In Training' at the CANSail 3-4 Instructor level.
- 7.8. For candidates remaining at the In-Training status or with specific requirements to be met prior to an evaluation, the LF should include detailed feedback on the assessment form. The LF must also report back to the organizing PSA with a detailed outline of the requirements.
- 7.9. To achieve 'Certified' instructor status, candidates holding 'Trained' status must arrange an Evaluation through their PSA. Evaluations must be sanctioned by the appropriate PSA and must be conducted at the appropriate CANSail level being assessed. Evaluation clinics and evaluations conducted at the candidate's home club are both acceptable assessment forms.
- 7.10. Once trained, candidates are strongly encouraged to practice and develop their instructing skills in a practical setting with a 'Certified' instructor before scheduling an evaluation.
- 7.11. The CANSail Instructor Assessment Form must be provided to the Evaluator prior to evaluation.
- 7.12. The primary job of the Evaluator is to evaluate an instructor's ability to teach and control a group of sailors. Evaluations should be conducted during a training session with athletes at the appropriate skill level. This should be a minimum of a full morning or afternoon session with the candidate.
- 7.13. During the Evaluation a candidate's ability to complete the skills in a particular section is compared to the standard and evaluated based on the following scale:
- 0 = Below Standard
 - 1 = Meets Standard
 - 2 = Exceeds Standard
- 7.14. At the conclusion of the evaluation, the Evaluator will review the session with the candidate and identify ways in which the candidate can progress as an instructor or areas that need to be worked on prior to a reassessment.
- 7.15. Evaluations for 'Certified' instructor status must take place within two (2) years of the Instructor Training Clinic (to December 31st of the second year). 'Trained' coaches that have not been evaluated and achieved 'Certified' status after the two (2) year period will no longer be able to certify CANSail levels within the context and will be required to retake the full Training Clinic.

- 7.16. Training or certification in a new technical context does not extend 'Trained' status in another context.
- 7.17. 'Trained' candidates that do not complete an Evaluation to the required standard ('0' on any core evaluated skill as indicated on the evaluation form) shall retain 'Trained' status. Candidates that are unsuccessful in an Evaluation are encouraged to gain further instructing experience within the context before seeking re-evaluation.
- 7.18. 'Trained' candidates who, during an Evaluation, receive a '0' in either Safety or Professionalism will revert to 'In Training' status and will not be eligible to deliver CANSail levels within the context.
- 7.19. 'Trained' candidates that complete an Evaluation to the required standard (at least '1' on core evaluated skills) are awarded 'Certified' status. 'Certified' instructors are able to issue achievement awards for the CANSail levels for which they are certified and may supervise 'Trained' coaches.
- 7.20. 'Certified' status is valid for a period of 4-years from the date of the CANSail Instructor Training Clinic to December 31st. Certified Instructors must recertify at the end of each 4-year period.
- 7.21. Candidates having attended a CANSail Training Clinic without the proper documentation for all necessary prerequisites will remain 'In Training' until such time as they can provide official documents showing completion of all required prerequisites and having completed any required retests.
- 7.22. Candidates must be given a copy of their Assessment &/or Evaluation Form at the end of any clinic or evaluation. They must be advised of their status (In-Training, Trained or Certified) and any further requirements (retests, prerequisites, etc).

ANNEX A

National LF Clinics – TCC Standards for Staffing Course Conductors

- Sail Canada will form a selection panel from among the *CANSail* Instruction Panel membership, plus additional experts from Sail Canada staff, or other sources as required (for example, Panel members may be forced to withdraw from the process due to conflict of interest). The selection panel should contain no fewer than three members and may contain no more than one member from an external stakeholder, such as a PSA.
- Provided the candidates meet the requirements of the CAC Policy on LF Development, Course Conductors should be selected to provide regional representation (Atlantic, Central and Pacific) and *CANSail* program knowledge where applicants allow. In all but exceptional cases, Course Conductors for National LF Clinics should be MLFs.
- Experts selected to support the clinic are not required to meet the same regional standards as the Course Conductors, nor need they necessarily be MLFs.
- Should applications from the open call for experts fail to provide sufficient qualified applicants, Sail Canada may make direct offers to possible candidates to complete the balance of positions.
- Course Conductors and other experts for the delivery of national LF clinics will be selected on the basis of their competency using processes that would satisfy commonly accepted standards of fairness.
